DISCUSSION DOCUMENT ON THE POLICY AND GENERAL ELIGIBILITY AND SELECTION CRITERIA FOR MULTI-CODED GAMES (2017 – 2024)

PREAMBLE

In the previous quadrennial, a process of developing selection policies was followed from May 2011 to December 2012 when the final general eligibility and section criteria for multi coded games was circulated to all membership.

This was followed for Games such as the 2014 Commonwealth, the 2015 African Games, however it posed a challenge for the 2016 Olympic Games. Some NFs wanted their obtained continental slots to be considered even though the policy indicating otherwise was already signed and agreed to. As a result, about 15 slots (approx. 50 athletes) were turned down. The purpose of this document is to review the current selection processes and criteria and to develop policies for the 2017 – 2024 quadrennial.

As a reminder, the following Resolutions were taken by the Presidents Council on 15 May 2011:

- 1. There will be a Generic Team Selection Policy for all multi-coded events binding all SASCOC member NFs, including winter sports and sports for the disabled;*
- 2. SASCOC will consider Continental Qualification for major events, taking into consideration international ranking, number of countries participating, and the presence of stronger countries at the CQT.*
- 3. Sport-specific selection policies shall consider technical issues and the performance pathway and history of each athlete/ team;*
- 4. The age group competitions shall be used for exposure to international participation, without losing sight of performance;*
- 5. The policy cycle shall be for eight years, with evaluation of every quadrennial;*
- 6. The Generic Selection Policy for 2016 shall be in place by December 2012.*

The membership needs to look at these resolutions and determine whether they are still applicable based on performances of athletes at various international events from 2013 to 2016. If not, new resolutions should be taken and new selection processes and criteria be adopted.

For the 2017 to 2024 quadrennials, the Games that need to be considered are:
